No. 32

## NO FIXED SPEED

### LIMIT IN ALBERTA

According to the statutes of the Province, revised last session of the Legislature, Alberta has no rigid speed limit for traffic on public highways. This has been gleaned from the regulations by Charles H. Grant, K.C. President of the Alberta Motor Association, in response to a request from the executive of the A.M.A. that complaints of motorists regarding arrests by the Provincial Police for driving in excess of 30 miles an hour, be investigated.

The paragraph in the Vehicles and Highways Traffic Act respecting a speed limit, reads as follows:—

"At a rate of speed which is unreasonable, having regard to all the circumstances of the case, including the nature, condition and use of the highway and the amount of traffic which is then, or might reasonably be

expected, on the highway."

There are, however, certain speed limits fixed beyond which the burden of proof that the speed was a reasonable one is upon the accused, i.e., if a motorist is charged with excessive speed, the crown only has to prove that the motorist was at certain places exceeding a certain speed, and if the motorist does not prove then that the speed used was reasonable, having regard to the existing conditions, he would be convicted.

Those limits which are *prima facie* evidence of excessive speed are as follows:—

1. Within a city, town or village. (a) On the street with a clear vision and between intersections, 20 miles per hour; (b) In turning a corner, 10 miles per hour; (c) Approaching or at a street corner or curve where there is not a clear view of approaching traffic, 10 miles per hour.
2. On the highway; (a) On the

## PROVINCE TO HOLD

### TAX SALES IN SEPT.

### TO COLLECT ARREARS

Land to Be Offered at Strathmore and Lacombe on Sept. 17

A number of public land sales under the Tax Recovery Act are now being arranged for September dates. They are mostly in municipal districts, but included in the list are also the towns of Lacombe and Strathmore, which are putting up a comparatively small number of parcels for sale on September 17.

In the case of the improvement districts, it is the intention of the department of municipal affairs to hold several sales during the fall, but, according to Deputy Minister W. D. Spence an opportunity will be given wherever possible to await the results of the harvest. The sales will likely not be brought on until the latter part of October, by which time it is expected that the first crop proceeds will have helped considerably in reducing the tax arrears.

Hon. R. G. Reid, Minister of Municipal Affairs, gives it as the Government policy not to force any delinquent owner off the land who shows any indication of making good, and tax recovery proceedings will be withheld in such cases until there has been reasonable opportunity to clear off some or all of the arrears from the proceeds of the new crop.

## COMMISSION OF COAST HIGHWAY

Tentative agreement for conducting a joint Federal and Provincial survey of the proposed road between Revelstoke and Golden was reached with the Dominion Government during the recent visit to Victoria of Hon. Dr. J. H. King, it was announced Monday by Hon. W. H. Sutherland, Provincial Minister of Public Works.

The arrangement is subject to confirmation from Ottawa, but Dr. Sutherland expressed confidence that this would be received by wire within the next few days.

With Revelstoke and Golden connected there will be a through route from Vancouver to Calgary, parallel to the main line of the Canadian Pacific Railway.

Revelstoke and Golden are 90 miles apart and between them lies the rugged Selkirk range. About half the territory through which the road would pass is National Park reservation.

## SERIOUS OUTBREAK OF

### THE COLORADO BEETLE

The potato bug, or Colorado beetle, has again made its appearance in Alberta gardens, and in some instances these most destructive insects are far more numerous than they have ever been before. Gardens that have been entirely free from them before are badly infested this year and all growers of tubers are warned to take every precaution in eradicating the pest.

The most effective remedy is to spray the potato tops with a solution of paris green. A quarter of a pound of paris green to seven gallons of water is sufficient for a 25-foot lot.

Early in the spring the Calgary Horticultural Society called attention to the necessity of spraying potatoes in view of the prevalence of the pest last year. This advice, however, was not generally followed. No time should therefore now be lost in undertaking this work or the potato crop will most assuredly be ruined.

A second spraying a little later on will, in the majority of cases, be found necessary.

straightway, 30 miles per hour; (b) Or at curves or corners as in 1 (c), 12 miles per hour.

In addition to this municipalities may limit speed over bridges, but must post a notice of such speed on the bridge.

# THE PIONEER, DIDSBURY, ALTA.

## WORLD HAPPENINGS BRIEFLY TOLD

Automobile accidents claimed 573 lives in 77 large cities of the United States during the four weeks ending July 16.

Kinjiro Matsudaira, a Japanese born in the United States, has been elected mayor of Edmonton, Mo. He was unopposed in the balloting.

Rev. W. B. Tighe, president of the Ottawa district Baptist Association, is dead. He was 57 years old and was formerly stationed at Winnipeg and Yorkton, Sask.

A consignment of half a million King salmon eggs from British Columbia for a private firm in Argentina, has been shipped from Puget Sound. The eggs are to be placed in a tributary of the Rio de La Plata.

Captain N. A. Sullivan, captain of the Renown, which took the Duke and Duchess of York to Australia, was invested by the King at Buckingham Palace with the insignia of a Commander of the Royal Victorian Order.

The annual crime loss in the United States is about \$3,000,000, it was stated at Atlantic City by delegates arriving for the thirtieth annual convention of the National Surety Company, of New York, which opened there.

The first system of aerial transportation for passengers, mail and express matter in the West Indies will begin operation about October 1. It will connect points in Cuba, Santa Domingo, Haiti and Porto Rico, and flights will be made twice each week.

Miss Sarah Fuller, pioneer in teaching the deaf to talk, died at her home, Newton, Mass., in her 92nd year. She was associated with Alexander Graham Bell, whose teaching of the deaf and the study of acoustics led him to the invention of the telephone.

The Dail Eireann has voted £20,000 (about \$100,000) in a lump sum as a provision for the widow and children of the late Kevin O'Higgins, vice-president of the Free State Council, who was assassinated recently. The money is vested in trustees.

Carrying with them marks of merit in the shape of some of the most coveted trophies in the Empire, part of the Canadian Bisley team arrived home. They brought the Kolapore Cup and the McKinnon Cup, both of which they won at the Bisley meeting.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

Advertising experts predict that the volume of newspaper advertising will increase 100 per cent. during the next ten years.

## Hikers.

Take a bottle of Minard's in your kit bag. Relieves sore feet.

## Air Mail Conference

### Canada To Be Represented At Meeting To Be Held At The Hague

L. J. Caboury, Deputy Postmaster-General, will represent Canada at the Conference on International Air Mail, which has been called by the International Postal Union to be held at The Hague on September 1. Twenty-five countries will send delegates and representatives of the leading aircraft companies of the world will be present. Temporary agreements will remain in force until 1929, when they will be submitted to the Universal Postal Union, which meets in London in that year.

It is still hoped by officials here to have some experimental flights made during the coming fall, probably in the Gulf of St. Lawrence, in order to have definite information upon which to call for tenders next spring. The experimental work is a matter of arrangement between the Postoffice Department and the Department of National Defense.

### Why Hobble Along On Sore Corns?

Don't cut corns with an old razor. Infection followed often by death may result from paring corns with an infected knife. Quick, safe relief comes from using Putnam's Corn Extractor. If afflicted with corns, calluses or sore footlumps, use "Putnam's"—it's reliable and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use Putnam's Painless Corn Extractor. 25c. at all dealers.

### Winnipeg Newspaper Union

### Shirring Is Shown On a Dainty Frock For the Junior Miss

Charmingly simple is the demure frock shown here and is a style the home modiste will find quite easy to fashion. The opening is at the back and shirring forms an attractive self trimming around the neck, at the waist and lower edge of the long raglan sleeves. No. 1548 is in sizes 8, 10, 12 and 14 years. Size 10 requires 2 1/2 yards 39-inch, or 1 1/4 yards 54-inch material, and 1/2 yard 36-inch lining for stays under the shirring. Price 20 cents the pattern.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

## Mountaineers Fail Again

### Towering Ice Wall Prevents Scaling Of Mount Robson

The great ice wall that guards the approach to the summit of Mount Robson turned back the two parties from the mountaineers of Seattle who sought to reach the peak, and another gallant failure must be added to the many that have been the lot of most Alpinists who have pitted the strength and skill of man against the might of this giant peak of the Canadian Rockies.

The mountaineers admit their defeat, but in their losing fight against insuperable odds, they added another brilliant chapter to a history which is bright among the Alpine Clubs of the world.

On their ascent from the floor of the valley to the high camp, they fought a driving rain and low lying clouds which made progress difficult and dangerous. Higher than that they had to contend with sleet and later again, when the weather cleared, with snow that was often waist deep.

Over and through all these obstacles they struggled only to find their way finally and completely barred by the great ice cliff that threw a barricade across the only approach to the summit. More than eighty feet high, in some places a full hundred, this terrific wall of ice rose almost perpendicularly from the lower glacier. There was no way up it, no way around. To make either attempt was to court instant death. There was nothing to do but retreat and leave the honors with the monarch of the Rockies.

For this year at least the battle of the mountaineers with Robson is over. It is a true only. Some other day they will come back until their colors of white on a background of green float from the silver turban of this giant of the north. Meanwhile they will content themselves with ascents of lesser peaks, the sentries the colossus Resplendent, Numm, Whitchorn and the other mountains that rise from this beautiful valley where millions of flowers of a million hues bloom even to the edge of the glaciers, and snow-capped peaks that girdle it meet with the skies in an eternal tryst.

### Historical Data

#### Exhibit Relics Of Old H.B. Days In North Canada

Relics of the history of the Hudson Bay Company were exhibited in Winnipeg recently for the first time. Many old documents, books from old libraries used in the long night of the Arctic, swords, guns, marriage licenses, signed before the company officers, and examples of life from every part of the country touched by the company were on view.

A model of the Nonsuch Ketch, the little ship that dared the ice floes of Hudson Bay in 1668, a facsimile of the charter granted by King Charles II. in 1670, along with the deed of surrender of the land by the Hudson's Bay Company to the Dominion of Canada, portrayed the historical events linked up with the opening of the north country. Andrew McDermott's peppercorn lease of land for 1,000 years on payment of one peppercorn a year is among the collection.

**For Scalds or Burns.**—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

### Boat Service Superior To Train

Crack de luxe trains in America are far superior to those in Europe, and yet train service has not kept pace with steamship service in the past 25 years. We had crack cannonball express 25 years ago when the transatlantic liners were rolling tubs. Today they are floating palaces. One never encounters impudent servants on first class liners, and that can not be said of first class trains.

### Clay Products In The West

Clay products made in Manitoba, Saskatchewan, Alberta and British Columbia last year were valued at \$1,829,915, compared with \$1,412,537 for the previous year. Alberta led with a production valued at \$804,932.

You can save yourself lots of trouble by not borrowing it.

## SUNDAY SCHOOL LESSON

AUGUST 14

### DAVID BRINGS THE ARK TO JERUSALEM

Golden Text: "We shall be satisfied with the goodness of Thy house, Thy holy temple."—Psalm 65:4.

Lesson: 2 Samuel 2:1-4; 5:1-6; 6:1-16; Psalm 24.

Devotional Reading: Psalm 84:1-4, 10.

### Explanations and Comments

1. David Made King Over Judah, 2:3, 4.—David went northward with all his household and his men, some six hundred of them (1 Sam. 27:2; 1 Chron. 12) from Ziklag, where he had been living with the Philistines as their vassal, and there settled in Hebron. Thither came the men of Judah and anointed David king over the house of Judah. "How much choice they had in the matter is difficult to say. The master of a devoted band of seasoned soldiers was a very dangerous man to eject. On the other hand, the public defense was likely to be well attended to by such a man, and then David had always been well-disposed toward his own people." —Smith.

II. The Dual Kingdom, 2:5 to 4:12.—A period of seven and a half years is covered by the text omitted from our lesson, during which David was king of Judah, and Ishboseth, the son of Saul, was king of the Northern Tribes. During this time there were continual feuds between the rival generals, Abner on the north and Joab on the south, though we have the record of only one battle. David seems to have kept out of the contests. His power constantly increased, while that of Ishboseth, who seems to have been only a tool in the hands of Abner, decreased. Then Abner made overtures to David to make the latter king of Israel. Perhaps Abner was moved by selfish motives, because he saw that Ishboseth's star was waning, or perhaps he represented the suspicion of Ishboseth that he was seeking the throne himself in taking to himself one of Saul's secondary wives. David demanded as proof of Abner's loyalty the return of Michal, Saul's daughter, for as the son-in-law of Saul David would be heir to Saul's throne. Abner seems to have been compelled Ishboseth to bring this about. Abner visited Hebron, was hospitably entertained, and departed, and then he was treacherously slain by Joab. Ishboseth could not long maintain his kingdom without Abner. The disaffection grew, and finally Ishboseth was stabbed to death in slumber by two of his captains. In great haste they carried his head to David as a welcome present, but they had mistaken their man. They met the same fate that David had met out to the Amalekite who claimed to have slain Saul.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

### Favorite Author Of Prince Of Wales

#### Kipling Is Only One He Quotes From Memory

The Prince of Wales probably read more as a boy than he has done since. He was given a simplified edition of Captain Cook's "Voyages of Discovery" by King Edward when he was seven years old, and this book absorbed him at once. His then tutor, in a monthly report, remarks: "The prince is so engrossed with Cook," which led to him being deprived of "Voyages of Discovery" for a month.

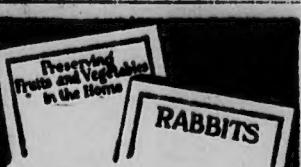

Macaulay's "Lays of Ancient Rome" made a strong appeal to him, especially the lay that tells the story of the Battle of Lake Regillus. The lay entitled "The Spaniard"—finished by another writer—also strongly attracted him. But a selection of Longfellow's poems given him by the Duchess of Connaught decidedly did not. "How do you like the book of poems I gave you?" the prince's grand-aunt asked him a little later. "I don't like it at all," was the frank reply. "I think they are dreadfully dull."

The prince began to read Kipling when he was twelve, and from that time Kipling has been his favorite author. Kipling is perhaps the only author whom he has ever quoted from memory.

**It Bids Pain Begone.**—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

### Prospecting At Smithers

A report received from Smithers, Central British Columbia, states that more actual new prospecting has taken place in that area during the past twelve months than in the preceding twelve years.

### Offered FREE by the Government

THESE two pamphlets, prepared from actual experience by Government experts, contain information of genuine value on any farm.

"Preserving Fruits and Vegetables in the Home" is a 46-page booklet particularly valuable at this time. It goes very thoroughly into every department of canning—fruits, vegetables, jams, jellies, pickles, etc. It discusses the various methods and makes many recommendations helpful towards better preserves and fewer spoilages. Contains 74 different recipes.

"Rabbits" gives the real facts about this profitable farm sideline, mentioning particularly the popular Chinchilla. Explains the chances of money-making in meat and pelts, detailing carefully the best methods of housing, feeding, breeding, marketing, curing diseases and choosing breeds.

Over 500 other pamphlets on farming subjects are available. Write to the 1927 list. Fill in and mail this slip post free to:

### Establishing Airplane Bases

#### Three Bases Will Be Completed At Early Date In Hudson Bay Strait Area

The Bay Rupert, the Hudson's Bay Company's ship which was on the rocks off the Labrador coast, has been hauled off without serious damage and has continued her voyage. Radio messages to this effect were received recently by the marine department from the government steamer Beothic, which is carrying the airplane expedition north to the Straits. The Beothic reported that the site of the first seaplane had been selected at a point near the northeast tip at Labrador at the eastern outlet of the Straits. Two of the six Fokker seaplanes will be left there with aviators and mechanics, a doctor and assistants.

The second base will be established midway up the Straits, and the third at the western end where the Straits join Hudson Bay. It is expected by the commander of the expedition, according to the radio messages, that the three bases will be completed within three weeks and flying operations will begin at once.

### Queen's Jewels Priceless

#### Wonderful Gems Found On Mummy In Egyptian Tomb

Among recent important discoveries in Egypt, according to an Egyptian correspondent, is the finding in Egypt's western desert of a tomb containing the mummy of a woman, presumably a queen, covered with jewels of priceless description. Among these are eighteen bracelets of gold and silver, five necklaces in brilliants on her neck and a superhead crown studded with brilliants. Near the body were found other necklaces in sapphires and brilliants, also a statuette beautifully carved from porphyry. Hieroglyphics on the tomb indicate that the body is that of a princess who lived three thousand years ago, but it has not been possible yet to establish to what dynasty she belonged.

### Put On With Brush

"Gilding the lily" has been applied to peaches as a commercial proposition. It took the public some time to discover that the beautiful bloom on a great deal of fine looking fruit was put on with a brush. Complaints were made to the police but the police unofficially replied that their eyes weren't any better than those of customers who buy the fruit. The fraud squad has been instructed to stop the practice.

Father: "I am not at all pleased with this report from your teacher." Youth: "I told her you wouldn't be dad, but she would send it. Just like a woman, isn't it?"

Betty Buzz stars in screen comedy

FLIT spray clears your home of flies and mosquitos. It also kills bed bugs, roaches, ants, and their eggs. Fatal to insects but harmless to mankind. Will not stain. Get Flit today.

CHAPTER V.—Continued

Helmi sang as she did everything else, without the slightest trace of self-consciousness. She stood in the doorway with her hands behind her, and to the gray-haired ladies who listened she seemed like the embodiment of hope and youth and aspirations as she sang in her deep voice,

"Keep on sowing when you've sown your crops,  
Keep on dancing when the fiddle stops,  
Keep on faithful when the curtain drops,  
And you'll get there in the morning!  
Keep on trusting in the cause of right,  
Keep on looking to the dawn of light,  
Keep on fighting till you've won the fight.  
And you'll get there in the morning."

CHAPTER VI.

Helmi's lessons went on. She could answer the telephone an explain in concise English that "Miss Moore is owing," or "Would you please wait one minute," followed by "Thank you very much."

"A civil tongue, Helmi," Miss Moore had told her, "may not take you as far as a pretty face, but it will take you along a safer road."

Helmi lived for the days she had her lesson. In the atmosphere of

CARRIED  
WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Minesing, Ontario.—"I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me to bed, I would be so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it; sometimes a half bottle or whatever I need. It is my only medicine and I have told many a one about it. Any one wanting to know more about Lydia E. Pinkham's Vegetable Compound, I will gladly write to her. I do all I can to recommend it for I feel I owe my life and strength to it."—Mrs. NEAL BOWSER, R.R. 1, Minesing, Ontario.

Do you feel broken-down, nervous, and weak sometimes? Do you have this horrid feeling of fear which sometimes comes to women when they are not well? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently will relieve this condition.

After that her teacher could not keep enough words ahead of her. Helmi kept a list of words pinned over the sink while she washed dishes, and in between her moments of attending to the real business of dish-washing she practised her sentences:

The lady is beautiful.

She has an elegant coat.

Will you go for a drive?

Have a chocolate?

I adore chocolates.

Miss Moore, who tried to help on the good work of Canadianizing this young person who had come to our shores, wrote on her sheet:

"Honesty is the best policy."

"Civility costs nothing."

"Evil communications corrupt good manners."

And these Helmi faithfully copied, but they left her cold. Indeed, she told herself in good Canadian that Miss Moore's sentences were dumb-bells!

Further attendance at the pictures brought home another fundamental truth—the lovely lady is always forgiven—indeed, she can do no wrong. She may appear to do wrong, but someone else is really to blame. She found this to be true with the Doctor and his wife. The Doctor loved her even when she scolded him, pleaded with her when she pouted, laughed at her extravagance though pretending to be horrified, bore with all her moods and rages. Helmi knew it was because she was so beautiful. Everyone said the Doctor's wife was such a lovely lady.

No wonder Helmi now decided against stenography. She would be a lovely lady! And the words and sentences which appeared on the wall were tingued with this resolve.

Helmi was struggling with the lesson on the beaver, in the Third Reader. "He is an amphibious animal," she read, "living both on the land and in the water." She looked inquiringly at her teacher, whom she knew, without looking up, was regarding her intently.

"Pshaw, Helmi, a girl with eyes like yours doesn't need to know about amphibious animals. Close the book—that will do for today. I want to talk with you. Life is a dull place anyway—we have to take what thrills we can. I get a thrill out of you some way, you are so young and promising. Now, I am going to have a party. The Doctor is going East in a week. I have my parties when he is gone, because my parties and my friends bore him to tears. So we set the dates to suit. And besides his mother is coming to visit us soon, and I want something new. You're the newest thing I know, and so I want you at my party."

"I have no clothes," began Helmi, "for style party."

"Listen, Helmi, I have the clothes, closets full, and I know just how to dress you. You won't need to talk, so don't worry over your English. You'll be a young Finnish lady visiting Canada, the Prime Minister's niece, and my friends in Montreal asked me to look after you. Your father is a shipping broker, and you are on your way to Vancouver to join him. We'll fool them, and when they are all raving about you, and wanting to dance with you, in your delightful broken English you will beg them to excuse you—you are so tired. You will slip upstairs, change back into your maid's dress, and come down and help Manda to serve. Now, come and let me try on your clothes. You are going to be a symphony in green, Helmi—there's no color so dazzling as green. Mauve dreams, red raves, but green slings. You're to be a singing goddess."

Helmi had to learn new words, for she was experiencing new thrills each day. Mrs. St. John took her once a week to the Moving Pictures Theatre, where Helmi sat spell-bound and dazzled. From the time she entered the enchanted place until she came out again into the sunshine she knew nothing of the real world. Watching the pictures she came up the aisle seeing no one, conscious of nothing, stumbling on the steps without knowing there was a step, or that she had stumbled, following her friend, vaguely to a seat, and sitting perched on the edge until some indignant person behind her told her to sit down and let somebody else see, with an impatient "What is the matter with you, anyway?"

The world Helmi entered through the green plush doors, laid hold on her impressionable young heart. She saw lovely ladies in trailing beaded dresses and shining jewels, leaving their elegant homes to go with their lovers, and smart young stenographers wearing seal coats and hats they could clasp on their heads and always look just grand, and who married the old man's wayward son and saved the old man's business from ruin by listening at the door when the bad men were plotting. Then and there Helmi determined she would be a stenographer.

Sometimes when riding on a street car Helmi would pick out some weather-beaten old business man with a beard whom she believed might be her future employer. It became her delight to give up her seat to such, rather to their discomfiture.

She felt it only right that she should pay them this little attention. She wondered greatly about the sons of these men—so much would depend on the son.

(To Be Continued)

Minard's Liniment for scaly scalp.

"Feyther," said little Mickey, "wasn't it Patrick Henry that said 'let us have peace?'" "Niver," said old Mickey. "Nobody by the name of Patrick Iver said anything like that."

Enlightened Red Men

Old Time Indian Chiefs Who Were Loyal To the Government

Western newspapers are liberal in their praise of Chief Thunderchild, who died on his reserve near Saskatoon a few days ago. He is said to have been the last of the old-time Chiefs, and as such signed one of the half-dozen treaties in the seventies by which the red man surrendered his prairie domain to the advancing whites.

Thunderchild illustrated how fortunate Canada has been in its relations with the aborigines. He was one of the Chiefs who refused to join Riel in the Rebellion of 1885, and remained loyal to the Government, with which he had made a covenant a few years earlier. The organization of the Northwest Mounted Police in 1874 was a wise move by the Canadian Government, and the Indians soon learned the value of the force as a protecting agency for them.

Crowfoot, the wise Chief of the Blackfoot tribe, out near the foothills, expressed well the view of the enlightened Indian when he signed the Blackfoot Treaty in 1877. "If the police had not come to the country, where would we all be now?" he said. "Bad men and whiskey were killing us so fast that very few indeed of us would have been left today. The police have protected us as the feathers of a bird protect it from the frosts of winter."

Crowfoot, too, refused to join in the rebellion, and he welcomed the railway as the natural instrument of the white race which in the Canadian West had befriended the natives who had to give way to new conditions.—Toronto Globe.

Gold Reserve Well Protected

Underground Vaults in Bank of England Are Burglar Proof

Although workmen engaged on the new underground vaults of the Bank of England, where all of Great Britain's gold reserve will rest, are guarded from prying eyes by armed policemen, some details have leaked out regarding what is said to be the world's hardest job of safe cracking.

Underneath the present bank are concrete walls fifty feet deep and seven feet eight inches thick. If somebody with felonious intentions were to tunnel through these he would come into a passage patrolled by guards and protected by every known alarm system around all four sides of the treasure.

Once in this passage way the cracksmen would have to cut through double grills of steel. The next step approaching the swag of several hundreds of millions of dollars in gold would be to cut through doors of solid steel weighing 24 tons each. This would take oxy-acetylene drills, in the hands of experts at least three days. These doors can be swung with light pressure of one hand, if they are open. When they are locked it is different.

Miller's Worm Powders are a prompt relief from the attacks of worms in children. They are powerful in their action and, while leaving nothing to be desired as a worm expellant, have an invigorating effect upon the youthful system, remedying fever, biliousness, loss of appetite, sleeplessness, and other ailments that follow disorders caused by worms in the stomach and bowels.

Something To Be Proud Of

Britain Holds Enviable Place in Long Distance Flying

The British record in long-distance flying is something to be proud of. We have to our credit the first conquest of the Atlantic both by airship and aeroplane, the long array of Empire flights by Sir Allan Cobham, and the magnificent non-stop attempt to India which synchronized with Colonel Lindbergh's Atlantic crossing. Yet to a great extent, because we are without the flair for self-advertisement which is a conspicuous possession of some other nation, Britain's reputation abroad is tending to become that of an indifferent performer in the air, and pessimistic critics at home are talking and writing as if we had fallen into a position of hopeless inferiority.

Husband: Well, thank the Lord the car is finally paid for.

Wife: Isn't it splendid? Now we can turn it in on a new one.

Minard's Liniment for cuts and bruises.

Little Helps For This Week

Walk worthy of the Lord unto all pleasing, being fruitful in every good work.—Col. 1. 10.

True worth is in being, not seeming. In doing each day that goes by Some little good, not in dreaming. Of great things to do by and by.—Alice Cary.

Not what we think, but what we do. Makes saints of us.—Ibid.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe Or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says:—"We have three fine healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Airplanes Outdo the Birds

Able To Make Much Longer Non-Stop Flights

Factory-made wings have eclipsed the feathered species. Lindbergh's non-stop flight was 3,610 miles. The distance flown by Chamberlin and Levine is estimated from 3,900 to 4,400 miles. The longest non-stop flights of birds have been those of Alaskan plovers from the Aleutian Islands to Hawaii, a distance of 5,400 miles, and the annual migrations of golden plovers from Newfoundland and Nova Scotia to the Leeward Islands and the northeastern coast of South America, a distance of 1,700 to 2,200 miles.

It takes a good artist or a good actor to draw a good house.

Diarrhoea Summer Complaint HE ALWAYS USES

Mr. T. F. McGregor, McLennan, Alta., writes:—"Over forty years ago my mother used to give us Dr. Fowler's Extract of Wild Strawberry for diarrhoea and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what the cause."

Don't Accept a Substitute. This valuable preparation has been on the market for the past 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Minard's Liniment for cuts and bruises.

## Didsbury Pioneer

Established 1903.

DIDSURY - ALBERTA

Published every Thursday.

Subscription Rates: \$2.00 per year, \$1.00 six months; 50 cents extra to Great Britain and the United States. Payable in advance.

Legal, government, and municipal advertising, 15 cents per line first insertion and 10 cents per line (unchanged) each subsequent insertion. Local readers ten cents per line.

Classified Advertising: For Sale, Articles Wanted, Lost, Stolen, or Strayed, etc., 3 cents per word for first insertion and 2 cents per word (unchanged) for each subsequent insertion.

Card of Thanks (not exceeding six lines) 50 cents per insertion.

Transient advertisements to be paid for when ordered.

Display advertising rates on application at the office.

Changes of advertisements must reach the office not later than six p.m. Tuesday to ensure insertion in the issue of that week.

W. P. Cotton, Editor and Prop.

## LOCAL AND GENERAL

As it was not possible to get the whole of the prize winners of the fair set up in type for this week's issue, it was judged expedient to hold the report over until next week, when the list of winners will be presented in their entirety.

A field of rye was being cut north west of town on Monday, and it is expected by the end of the week a commencement will be made east of town of the barley. Wheat will probably be three weeks before it is ready for the binder, although in some districts on the lighter soils an earlier start will probably be made.

Mr. and Mrs. Geo. Liesemer left this week for Vancouver and other coast points.

The U.F.A. convention to be held in Didsbury on Thursday of next week is expected to see a big attendance of members. There will be a directors' meeting in the morning with a lunch at noon, followed in the afternoon by the convention. Many interesting topics are down for discussion, and some interesting addresses will be given by Mr. Claypool and others. Every member is urged to be present.

The staff of the "Pioneer" has been considerably shortened this week by the departure of Leonard Cotton on a two weeks' vacation to Vancouver, and Ed. Clayholt to Prince Rupert. The latter will visit his brother there and probably stay for the winter.

The weather during the past week has been ideal for the crops, and farmers generally are very optimistic. The warm nights and bright sunny days have brought the grain along splendidly, and the outlook at present is for the biggest yield in the history of the district.

Mr. and Mrs. Robt. Carson and family of Toronto and J. A. Carson of Calgary are visiting with Mr. and Mrs. W. J. Hillyard this week.

Miss Anna Bricker of Calgary has been visiting the past week with Miss Laura Smith.

Jim McGhee left for Edmonton this week on his vacation.

Mrs. W. A. Miller returned last week to Pennant, Sask., after a very pleasant visit spent with friends in Didsbury.

Mr. and Mrs. J. Berscht and son Lennie have been spending a few days in Edmonton.

On their return home to Minneapolis from China, Rev. A. Zeigler with his wife and family have been visiting the past week at Westcott with Rev. and Mrs. Nissen.

Mr. and Mrs. Dageford have returned from a long and interesting trip south of the line, their itinerary including Portland, Los Angeles, Santiago, and a motor trip into Mexico.

Mr. and Mrs. G. Booker and family of Allen, Sask., who have been on a motor tour through the province, visited with relatives and friends here whilst passing through.

The following appointments have been made by Didsbury school trustees in connection with the high school for the coming term—A. W. Crum, principal, who will be assisted by A. Liesemer, Miss E. Jagoe and Miss A. Johnson Public school—J. Casey, principal, assisted by E. Evans and Misses Sexsmith, A. Huget and P. Liesemer for the Primary.

A dance will be given in C H Rinehart's barn on Wednesday, August 17th, under the auspices of Clovermount baseball team. Four piece orchestra. Everyone invited.

Don't fail to see the picture entitled "Blow your own horn" at the Opera House on Saturday, August 13th. For Wed., Aug. 17, Hoot Gibson in "Hero on horseback."

Miss Beatrice Kendrick, who has been the guest of Winnifred Studer at Sylvan Lake for the past five weeks, returned home Sunday.

Mrs. A. G. Studer returned from Sylvan Lake on Sunday. During the past five weeks the house guests at the Studer cottage included Mrs. A. R. Kendrick, Master Murray Kendrick, Mrs. Dan Campbell, Dwight Carlyle, Dr. and Mrs. G. M. Reid of Calgary, formerly of Didsbury.

Mr. and Mrs. J. Huget and family were Sunday visitors to Sylvan Lake.

Mrs. A. R. Kendrick has visiting her this week her sister, Miss Henderson, and her father, both of Calgary.

Mr. and Mrs. W. G. Liesemer had as week-end guests Miss Marie Cameron and Mr. Jack McClung, both of Calgary. Miss Evelyn Liesemer accompanied them to Calgary on Monday.

John F. Miller, Eyesight Specialist, of 404 Underwood Block, Calgary, will be at Rosebud Hotel in Didsbury on Saturday, August 20th, for the purpose of correcting your and your children's eyes. Do not miss this opportunity.

Dr. Robert Geo. Gilmour, a pioneer of the Lacombe district for over thirty years, passed away on July 17 at the age of 58 years.

An Oklahoma girl advertised for a husband, and landed one within a very short time. The advertisement cost \$3. She paid the wedding expenses, \$9. In less than a year the husband died, says the "Atchison Globe," and left his widow an \$11,000 insurance policy. Now will you admit that it pays to advertise?

## OBITUARY.

### JOHN WRIGGLESWORTH

A well known resident of Esquing Township passed away on Tuesday, July 5th, at his residence on the seventh line near Ashgrove. He had been in rather poor health for about four and a half years but this year seemed much better than usual. About nine days prior to his death he began to grow weaker and, at the end, slept peacefully away.

Mr. Wrigglesworth was a son of the late George Wrigglesworth and was born in Trafalgar, April 20, 1847. He came to Esquing with his parents when he was a small boy and settled on the farm now owned by Daniel Wright on the seventh line.

Mr. Wrigglesworth was one of Halton's most prosperous farmers and was an active member of the Methodist Church at Ashgrove. From 1898 to 1900 he was a member of the Esquing Township and Halton County councils, having served as Warden of the county in the year 1900. He is survived by his wife and four children, Mrs. John T. Shanks of Pettapiece, Man.; Fred. Wrigglesworth of Hornby; Norman Wrigglesworth of Ashgrove and Gordon Wrigglesworth of Ogden, Utah. Also surviving are three brothers and three sisters: Geo. Wrigglesworth of Georgetown, Dr. Thos. Wrigglesworth of Eau Claire, Wisconsin, William Wrigglesworth of Didsbury, Alberta, Mrs. David Trimble and Mrs. J. H. Cameron of Toronto and Mrs. Parsons of Minneapolis.

—Georgetown Herald

## METHODS OF JUDGING

There are many ways of judging animals—one by their appearance, and the other by their performance. Any one who judges entirely by the latter method is immediately accused of "farming on paper," and indeed, many have failed to attain their ambitions and turn out first-class stock through paying too much attention to milk records, egg records, etc., without having due regard to the appearance of their animals. Consequently they have lost constitution. At the same time, it is equally unsound to judge by appearance and show points unless these have been proved beyond question to be utility points also.

What is needed today is some system of correlating field with external features and a great deal more accurate experimental work and observation are needed before this can be done. Man a cow has got a "good bag," but in spite of it only gives a low yield. Our show societies are continually paying more attention nowadays to performance as opposed to show points, and it is sincerely to be hoped that this will enable breeders to see what external features are connected with high yielding capacity and so help them to judge accurately the milking capacity of a cow by her outward appearance.

### Tenders Wanted.

Tenders will be received for the painting of Mountain View Bible School. For particulars apply N Swalm, chairman of board, Didsbury.

### For Sale.

Seed Rye for sale. For price, etc, phone 1112.

### For Sale.

Thirty-one weaner hogs, 6 to 9 weeks old. Phone 1006, after 8 p.m.

### Wanted.

Horses in good pasture. One mile south, three miles west of Didsbury.—Paul Uhlund, phone 307.

### For Sale.

Studebaker touring car, in good condition. Would make splendid truck. Will consider trade for horses or cattle.—J. A. McGhee.

### For Sale

South-west quarter 34-31-6-5, west of 5th, 31 miles west of Didsbury. House and barn, all fenced. Water all year round. Three quarters leased land. Fine for stock-raising. Enquire at office of this newspaper.

### For Sale

One Frost and Wood binder, 8 ft cut, new last year. For price, etc., phone 911. H. D. Brown, R.R. 1, Didsbury.

### For Sale

McCormick Binder, 6 ft out. F. Leser, 1 mile south, 1-2 mile west of Didsbury.

### For Sale.

Two pure-bred Shorthorn bulls for sale. Also Young pigs. Kendrick and Good, Didsbury.

### The Next Ten Years

will be the best in the world's history. Make them the best years in your life. Write "The Pathway To The Sixth Sense," Supply Dept., Port Huron, Mich. Offices: Chicago, Ill.; Toronto, Can.; Nottingham, England.

Word comes from the Engineering Department of the Canadian Pacific Railway that when the Banff Springs Hotel opens on May 15th, for the summer season, the north wing of the building will have been completed and ready for occupancy. Next year at the same date the south wing will have been rebuilt, when there will be at the service of the public an hotel of over 600 rooms and baths, as well as its other splendid accommodations.

The Fukuoka Wireless Receiving Station, claimed to be the largest of its kind in the East, was opened recently. All wireless messages from America and Europe will now be received there. Work on this Japanese station was begun last August costing over \$300,000. The station is equipped with a transmitting apparatus which, however, will not be used except in an emergency.

During the year 1926 a total of \$45,563,000 was spent on construction and maintenance of all provincial highways in Canada, according to computation made by A. W. Campbell, Dominion Highway Commissioner. Of this total \$29,685,000 was spent on construction and \$15,987,000 on maintenance of highways already constructed. The total mileage of roads involved in this aggregate expenditure was 46,824.

Representing fifty Nebraskan families who wish to settle in Canada, a delegation headed by Frank Stewart, of Nort Platte, Nebr., conferred with C. A. Van Scoy, superintendent of the colonization department of the Canadian Pacific Railway Company at Winnipeg in order to obtain details regarding suitable tracts of land. The land seekers will go to Calgary with a representative of the department and inspect land in that vicinity. The group proposing to emigrate has ample capital, it is said.

Head Office:  
Montreal

### BLACKBERRIES

The blackberry season is here. The blackberry is certainly the poor man's fruit, and it is surprising the various ways in which the poor utilize them. Besides being delicious in tarts and boiled suet puddings, blackberries make excellent preserve either alone or mixed with apples.

To make good preserve, to every two pounds of fruit add a teacupful of water and three-quarters of a pound of sugar. Loaf sugar of the best quality should be used, and will be found more satisfactory and cheaper in the end. Allow the fruit to boil for at least five minutes before adding the sugar, and it should come to the boil slowly, stir frequently to prevent it burning, keep it gently boiling for three-quarters of an hour; then turn the jam out and slightly cool before putting it into jars. Those who desire to mix apples with the berries must first stew them into a pulp before mixing. The quantities used should be two pounds of apples peeled and cored to every eight pounds of blackberries.

#### Blackberry Vinegar

This is a most delicious and refreshing drink, used in the proportions of two-thirds water to one-third of the syrup. Put a quart of the fruit into a jar with an equal quantity of vinegar. Let the mstand for a day, then squeeze out the juice, and keep adding for two or three days in succession as many berries as the vinegar will cover, each time pressing out the juice with the back of a wooden spoon. To every quart of liquid thus obtained, put two pounds of loaf sugar, and boil for ten minutes. Strain when quite cool and bottle carefully. If stored in a dry place will keep for some considerable time.

#### Blackberry Syrup

Here is a simple remedy for colds. Stew the berries with a little water to extract the juice, strain through a coarse cloth, and to every pint of juice allow 6 oz. of loaf sugar. Boil sugar and juice together for a quarter of an hour; then bottle for use.

#### Blackberry Jumket

Blackberry jumket is an easy dish to make and very appetising. Take one quart of new milk (or milk of the same temperature as new), add a little salt, whites of two eggs beaten to a froth, one teaspoonful of cane sugar, and one teaspoonful of rennet. Pile up in a glass dish, blackberries and sliced sweet pears or apples, and pour the above mixture over, let it stand for a quarter of an hour in a cool place. Serve with custard or cream.

#### House for Sale.

For quick sale, cheap, easy terms, small comfortable house, before I go east. For particulars see Jas. Reed.—Thos. Young.

#### Lost.

Lost a dog, black yellow, small white stripe under breast. Please phone 2104.

### THE RED HOLOCAUST

Forty-six thousand forest fires in Canada during the past eight years, an average of nearly six thousand a year, is this country's unenviable contribution to property waste and unemployment.

How have such fires occurred? 91

Chiefly a series of innocent-looking acts such as abandoned camp fires, and tossed-away cigarettes and matches. Few people have any idea of the inflammability of a forest on a dry day. The belief that a camp fire will go out by itself has destroyed hundreds of townships of Canada's

finest forest areas. The shocking forest fire losses of Canada will be cut by at least sixty per cent. when people learn to exercise a little caution which involves no cost or trouble.

Is your subscription due?

## Cultural Wealth Revived

(1) Chateau Frontenac, Quebec, where Festival was held.  
(2) Charles Marchand, French-Canadian folksong interpreter.  
(3) The song of the little shepherdess was a hit of the children's offerings at the Festival.  
(4) Typical Quebec woman seated at her spinning wheel.

By all accounts the Canadian Folksong and Handicraft Festival held at the Chateau Frontenac, Quebec, under the auspices of the National Museum of Canada was an unqualified success. More than any previous event which had to do with French-Canadian folk music it has brought to public notice the rich heritage of native song in Canada. Not merely did the concerts prove magnetic, but the general atmosphere of the Festival brought forth something dormant, a wealth of national culture that has been buried under the oppressive weight of materialism.

Quebec during the three days of the Festival was invaded by artists from all parts of Canada — celebrated singers from the large cities and the most humble, though not the least interesting, interpreters of the Canadian folksong from the outlying districts. The Festival, looked upon as a whole, has brought forth artists and material never suspected. The celebrated men and women were applauded but those unknown quantities like the village songsters and dancers, and the Hurons of Lorette, supplied that unusual atmosphere of novelty and attraction that characterized the Festival.

Vincent Ferrier de Repentigny and the lumberjacks in their checked shirts and grey breeches; Phileas Bedard with his homespun clothes and his beaming smile; the fisherfolk from Gaspé; Madame Leblond and her daughters with their spinning wheels and hooked rugs; Napoleon Leblond from the Isle of Orleans with his toy ships carved by hand; the women from L'Assomption braiding the Canadian sash — almost a lost art — and in contrast with these the superb singing of cultivated artists, Cedia Brault,

Juliette Gauthier, Jeanne Dusseau, J. Campbell McInnes and Rodolphe Plamondon. Nothing more thoroughly Canadian can be imagined than the rollicking songs of the lumberjacks and raftsmen of Quebec by Charles Marchand and his "Troubadours."

And it looks as if the Festival will become an annual event. At the close of the last concert in Quebec, it was announced that not only would the Festival be held next year, but that E. W. Beatty, President of the Canadian Pacific Railway, had offered \$3,000 in prizes for compositions to be played at the 1928 Festival. The compositions to be based on French-Canadian chansons and folk melodies, for which prizes are offered as follows:

1.—\$1,000, divided into \$750 and \$250 as first and second prizes, for instruments, and not to last over 30 minutes.

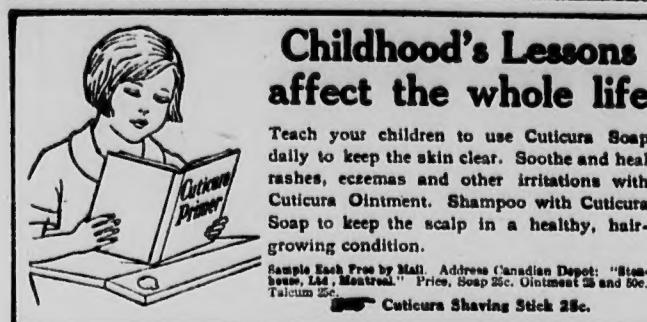

2.—\$1,000, divided into \$750.00 and \$250.00 as first and second prizes, for a cantata introducing French-Canadian chansons populaires; the \$750 to be divided; \$500 for music and \$250 for libretto; the \$250 to be divided; \$150 for music and \$100 for libretto.

3.—\$500 for suite for string quartet, not to last over twenty minutes.

4.—\$250 for group of arrangements of four chansons populaires for male voices.

5.—\$250 for group of arrangements of four chansons populaires for mixed voices.

The last two (4 and 5) are confined to Canadian composers. The others are open to international competition. Judges and details will be announced as soon as possible, through the musical press.

## "Nothing Can Stop Us."

Canada has been honored in this year of its Diamond Jubilee by another visit from the Prince of Wales. On this occasion, however, he is accompanied by his brother, Prince George, and by the Right Honorable Stanley Baldwin, Prime Minister of Great Britain.

The significance of this visit will not be lost upon the people of Canada, nor, in fact, upon the British Empire as a whole. The ease with which the people of Canada and the British Isles can exchange visits nowadays is resulting in a more intimate knowledge of each other and is developing a community of interest quite lacking not so many years ago. Now it is almost as easy for the people of Canada and Britain to visit each other as it is for Canadians in the Maritime Provinces to visit their fellow citizens in British Columbia.

The fact is thus being made known to the world that Canada occupies a strategic position in the British Commonwealth of Nations. Its geographical location in the Empire, constituting it the main highway between the Occident and the Orient, must inevitably result in this Dominion being the real centre of the Empire in the not so very distant future. And the development of trans-oceanic travel by air will only serve to emphasize Canada's important place in the Empire.

Thus, for the first time in history, a Prime Minister of Great Britain is able during his tenure of office to leave Britain and make an official visit to one of the overseas Dominions. He could not possibly spare the time to visit any of the other Dominions. It is an epoch marking event.

It is apparent that Mr. Baldwin, himself, is cognizant of what the future has in store. In an address before the Montreal Canadian Club shortly after his arrival in this Dominion, Mr. Baldwin spoke in such optimistic terms of Canada's future possibilities and greatness that, voiced by a native Canadian, would have left the latter open to possible ridicule and criticism as being bombastic.

Mr. Baldwin sees no limit to the greatness of Canada's future. "Nothing can stop you," he declared. Canada, he went on to say, must progress with the world's progress with the result that some day "Canada may be the greatest nation in the world."

Sixty years of Confederation have proven to Canadians and to the world what can be accomplished, and have established the untold possibilities of the Dominion in all those qualities and resources which go to make a nation great. Another sixty years may easily see Canada with a larger population than the British Isles, with manufacturing being carried on with a magnitude as yet only dreamed of, and surpassing in output the great industries of the Old Land, while at the same time supplying in much greater degree than today the food requirements of the world.

Canada is only now getting into its stride. It is just on its feet, and on the eve of a development and expansion in all the major activities of the world which will establish a new world's record in national growth. Canadian foundations have been well and truly laid. They are strong enough upon which to erect a magnificent structure, and it only remains for the Canadian people to realize its possibilities and devote themselves with patriotic devotion and untiring energy to the inspiring tasks before them.

The days of pessimism are past. There never was any real cause for them, but this Jubilee year has, there is reason to believe, finally convinced the people of the Dominion of this fact. There has been a great awakening of our people, and a new national spirit has been evoked, a new confidence born, and a pride and courage developed which in a comparatively few years will work a veritable revolution in the growth of this Dominion.

Canadians will do well to keep ever in mind the slogan of the National Diamond Jubilee Committee "Canada Our Country," and to accept as their watchword the words given to them by Premier Baldwin, "Nothing Can Stop Us." In making Canada great and prosperous they will be rendering the finest possible service to the Empire as a whole and confer benefits upon the world at large, because, above all things, the Canadians are a home loving, peace loving people. They have the true conception of the new Internationalism which believes in the advancement of all peoples as the true policy of a better world.

### Saskatchewan Cow Makes Record

G. E. Day, Secretary Dominion Shorthorn Breeders Association, Guelph, Ont., reports that Darlington Mable (201080) a cow owned by F. S. Cooper, Gravelbourg, Sask., has just completed a 365-day record of 5,617 lbs. of milk and 249 lbs. of butterfat.

Duties of other people are always doubly clear to us.

### Alberta Coal For B.C.

Mr. George R. Pratt, fuel engineer for the Alberta Government, reports that there are strong possibilities of establishing a coal factory market for Alberta coal on the Pacific coast due, to some extent, to the creation of bunkering facilities at Vancouver.

If a man is too lazy to think for himself he should get married.

## Children Cry for

**Fletcher's CASTORIA**

**MOTHER:- Fletcher's**  
Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulence, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Chas. Fletcher*.  
Absolutely Harmless - No Opiates. Physicians everywhere recommend it.

### Unique Device Patented

#### 'Rollers At Railroad Crossing Will Prevent Accidents'

As a means for preventing automobile accidents at railroad crossings, an Ohio inventor has patented a roller device which has proved effective under tests, says Popular Mechanics Magazine. There are two sets of rollers, each eighteen feet long, installed in the highway near the rail approach. They revolve only one way and when the automobile strikes them, as a train is approaching, they turn, keeping the car from going forward. When the train passes, a switch locks the rollers so that the auto can proceed.

### THE BEST MEDICINE SHE EVER USED

#### Dr. Williams' Pink Pills Highly Praised By a Quebec Lady

Mrs. David Logan, Thetford Mines West, Que., gives unstinted praise to Dr. Williams' Pink Pills for the good they have done in her family. Mrs. Logan says:—"I have been a user of Dr. Williams' Pink Pills for many years, as occasion required, and have always found them a most reliable medicine. My husband, who was recovering from an attack of typhoid fever, and was in a very weak condition, took the pills, and through them gained health and strength. My daughter was in a run-down condition, and was forced to discontinue work. Again Dr. Williams' Pink Pills were resorted to and she was soon restored to excellent health. Then my eldest boy had an operation performed for adenoids, which left him in a weakened condition. Once more Dr. Williams' Pink Pills were tried, and he was soon in excellent health. So I can truly say that more than satisfaction has been obtained by the use of this medicine. The pills have done more good in my home than hundreds of dollars worth of more expensive medicines."

Dr. Williams' Pink Pills assist digestion, correct the fassitude, the palpitation of the heart, shaky nerves and the pallor of the face and lips that are the results of thin, impure blood.

You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### An Overcrowded Country

#### Population Of England Is 700 To the Square Mile

It must be confessed that we dwell in an over-crowded country. The population of England, apart from Wales and Scotland, is more than 700 to the square mile. We are four times as crowded as India and nearly three times as congested as China, we are twice as crowded as Germany or Italy, and nearly four times as France. Nevertheless, since 1910, we have built some 800,000 houses at a capital cost to the public purse estimated to be about £147,000,000 — and still State subsidies are being given towards uneconomic housing schemes, which fill our suburbs and encourage builders to erect ugly villas along our country roads.—B. S. Townroe Edinburgh Review.

### Movies Filmed In Rockies

#### Spectacular Stunts Of Aviation Over Lake Louise

The most spectacular event ever attempted in the Canadian Rockies and one which attracted every guest to the front lawn of the Chateau Lake Louise, was successfully carried out by two Canadians, ex-Royal Air Force officers, W. H. Williams and E. C. Bigelow, who for half an hour performed a number of flying stunts over Lake Louise and the Chateau. Zooming down on the lake and dropping from the machine in parachutes were the features of the exhibition which was staged by the Fox Film Company in connection with their film, "Pyjama." This picture, which stars Olive Borden and is directed by Jack Blystone, is now being made in Alberta.

#### Encourage Vegetarian Weddings

"Vegetarian weddings are being encouraged by the French Society of Vegetarians. They have organized a series of functions where young lovers of vegetables can start their courtships. Opposites may be attracted to each other say some of the leaders of this movement, but the dinner table is likely to become a battle ground if there be too great a difference in tastes."

For corns and bunions use Minard's Liniment.

### New High Speed Ships

#### 'Will Cross Atlantic From Germany In Four and a Half Days'

Vincent Astor, recently returned from Europe, brings news of interesting high-speed transatlantic travel developed in Germany.

Within a short time German ships will cross in four and a half days. The cost of such high speed will be great even with modern Diesel engines, fuel consumption going up many times faster than a ship's speed.

But two of the high-speed ships will make as many trips across the ocean as three of their fastest competitors could make. That will make up for speed cost, saving 50 per cent. in ships and crews. And the short trip will draw the best paying customers, including the idle rich, to whom it does not make any difference how slowly they go. They think they are in a hurry and very busy, and willingly pay for speed.

### Plan Scottish Dictionary

#### Ambitious Project To Be Carried Out In New York

Under direction of the Scottish Dialects Committee a new Scottish dictionary is to be issued. It will consist of from ten to fifteen parts, each part being issued as it is completed. While the project might be self-supporting should there be a sufficient number of subscribers, the committee is being aided financially by the Carnegie Trust, and is sending appeals to Scots at home and abroad, and also to Burns Clubs, St. Andrew Societies and Scottish County Associations. Representatives will be sent to Ireland, New Zealand and other countries to gather material. In seeking information a questionnaire brought 15,000 replies from the district of Edinburgh alone.—New York Morning Telegraph.

#### Alberta Cattle Breeder Sells Herd

Allan R. Gillies, breeder of Ayrshires and Yorkshires, Clover Bar, Alberta, has sold his entire herd of 63 head of pure bred Ayrshires to parties in Seattle, Wash., U.S. It is unusual for whole herds to be sold at one stroke. The sale apparently indicates that the demand for Western Canada live stock is steadily increasing.

## WILSON'S

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Drugists and General Stores — 10c and 25c per package.

**SALES MAN WANTED** to sell hardy tested stock of "Chamomile," "Great Northern" (buttered 90 years), New and special lines, including varieties recommended by the Western Experimental Stations. Highest commissions, exclusive territory, handsome free outfit. Start now. Stone & Wellington, Toronto, Ontario.

### Leaves For Hudson's Bay

#### British Engineering Expert Is Accompanied By Official Party

Frederick Palmer, British engineering expert, who has been retained by the Dominion government to report upon the Hudson Bay harbor development at Port Nelson and Fort Churchill, arrived in Ottawa, July 27 from England, accompanied by E. J. Buckton, prominent engineer of London, England, and left at once for Hudson Bay with the official party, which includes Hon. Charles A. Dunning, minister of the department of railways and canals, and Major Graham Bell, the deputy minister.

**The Terror of Asthma** comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and, if the remedy be used persistently, the disease is put permanently to rout. Take no substitute.

**Coal Production Increasing** Latest official figures show that coal production in both Alberta and Saskatchewan is increasing.

#### Mirard's Liniment for burns.

Perhaps a widow finds it easy to get married because she doesn't expect perfection in a man.

Proved safe by millions and prescribed by physicians for

## CROP CONDITIONS ARE FAVORABLE IN ALL DISTRICTS

Ottawa.—Canada's crops are in good condition. A report issued by the Dominion Bureau of Statistics based on telegrams giving the condition of crops at the end of July shows that the crop situation in every province is favorable.

The following is the report based on individual provinces.

Manitoba.—July favorable. Abundant moisture. Slight hail damage. Wheat cutting not general until late August. Much late grain. Pastures luxuriant. Heavy hay crop but low natural meadows too wet to cut. Vigorous straw growth. Promise of at least average grain yield if everything proceeds favorably and rust does not develop.

Saskatchewan.—Favorable weather over the province as a whole has resulted in strong growth of all grains. Wheat, although later than last year, is reported in healthy condition with a generally even stand. Albeit by the hot weather of the past week, about 70 per cent. is now headed out. Coarse grains are also in good condition with oats coming into head. Slight traces of rust have appeared in the south and eastern parts of the province, being most noticeable along the line from Verwood east to Weyburn, and from the north to Vibank. Hail caused damage to small areas at scattered points throughout the north and northwestern parts of the province. Severe damage was sustained as a result of a storm originating west of Swift Current, which travelled in a south-easterly direction and caused serious injury in the Vanguard, Kincaid and La Fleche districts. Summer-fallowing is about 90 per cent. completed. Pastures are in good condition with a splendid supply of moisture.

Alberta.—Crop conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grains filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1926. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

British Columbia.—All crops ripening fast. Harvesting rye well advanced. Wheat cutting commencing. Will be general in week's time. Cereal yields will be well above average. Potatoes and roots promising. Early estimates of 80 per cent. apple crop still holds good with prospects of a slight increase when harvesting completed.

Alberta.—Crop conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grains filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1926. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

British Columbia.—All crops ripening fast. Harvesting rye well advanced. Wheat cutting commencing. Will be general in week's time. Cereal yields will be well above average. Potatoes and roots promising. Early estimates of 80 per cent. apple crop still holds good with prospects of a slight increase when harvesting completed.

## Official Visit Will Terminate At Calgary

### Remainder Of Canadian Trip Is Holiday For Prince

Ottawa.—The Prince of Wales plans to spend five days on his ranch in the foothills of the Rockies and then to visit Vancouver and Victoria before returning home. It is probable that he will sail for England from Quebec on Sept. 7.

When the Royal train reaches Calgary and the two Royal Princes part company from Premier Baldwin, the official visit of the Prince in effect terminates. The remainder of his stay in Canada is primarily a holiday, although His Royal Highness expects to fill a few engagements.

## British Women Making Tour

### Large Party Will Make Trip Through Western Canada

Toronto.—A party of 200 women from the Old Country headed by Mrs. Flora Drummond, of London, England, has arrived in Toronto. They are touring Canada and intend to journey on through Western Canada and on to the coast.

Mrs. Drummond, who gained fame as the leader of suffragettes, has now turned her attention to a new movement called "the guild of Empire," which is designed to educate the woman in the home to the economic and industrial needs of the Empire. It has a membership of 40,000 at present.

## Poultry Congress Closes

### Retiring President Receives Honorary Degree From McGill University

Ottawa.—With speeches expressing international goodwill and with a touching tribute to the retiring president, Edward Brown, of England, the third World's Poultry Congress concluded its business sessions.

Interesting announcements which featured the closing were:

Edward Brown, F.L.S., of London, England, president and founder of the World Poultry Congress, will have an honorary degree conferred on him by McGill University, Montreal, at a special convocation.

Their Excellencies Viscount and Lady Willingdon will shortly build up a flock of poultry of a breed which Her Excellency particularly fancies, as an outcome of the congress.

Ottawa Centenary choir may be taken to England in 1920, en bloc, to take part in the fourth world's poultry congress to be held in London.

United States poultry men are discussing chartering four ocean liners to carry them and their exhibits to the next world's poultry congress in London.

President Ernest Brown read messages from crowned heads of Europe and other distinguished personages, congratulating the congress upon its outstanding success at Ottawa.

## Increase In Tourist Traffic

### Canadian Rockies Great Drawing Card Says Railway Official

Winnipeg.—That tourist travel this season was in excess of previous years, and that visitors were coming to Canada from all parts of the world, was stated here by C. E. Ussher, general passenger traffic manager of the Canadian Pacific Railway.

Mr. Ussher, who has just completed a tour of inspection of the company's famous summer resorts at Banff and Lake Louise, said that more people were visiting the Canadian Rockies than ever before, and that indications pointed to a steadily increasing traffic from year to year.

Mr. Ussher was optimistic with regard to conditions throughout the country and was of the opinion that business on the Pacific coast and on the prairies was such as to give cause for general satisfaction.

## Naval Conference Ends

### Delegates Agree That No Pact Can Be Reached

Geneva.—After trembling on the brink of a precipice, the tripartite naval conference, at the solemn hour of midnight, crashed to the bottom of the abyss. Its delegates mutually and sorrowfully agreed that no pact could be reached to limit further the armaments of Great Britain, the United States and Japan at this time. This announcement was made after a meeting of the plenipotentiaries to consider the Japanese compromise proposals.

The decision to adjourn the conference was brought about by the inability of both Great Britain and the United States to accept the Japanese compromise as a basis of discussion for settling the cruiser question, which was the crux of the whole conference.

## Baldwin Celebrates Sixtieth Birthday

### King and Queen Send Greetings To British Premier

Ottawa.—August 3 was the right Hon. Stanley Baldwin's 60th birthday and hundreds of congratulatory messages poured into Rideau Hall all day. Among them were messages from the King and Queen, expressing to the premier of Great Britain their congratulations on his 60th birthday.

He was presented with a silver salver by members of his staff, tokens of esteem from their Royal Highnesses, the Prince of Wales and Prince George and Their Excellencies, Lord and Lady Willingdon, and a beautifully gold-mounted cherrywood pipe from Rt. Hon. Mackenzie King.

### Financial Aid For Queen Marie

Paris.—A Havas despatch from Bureaux says that the chamber of Deputies has voted a civil list which will give more money to Dowager Queen Marie from the state treasury than to Little King Michael.

## MALCOLM GEDDES LOSES HIS LIFE ON LEFROY GLACIER

Calgary.—Malcolm D. Geddes, of Calgary, veteran member of the Alpine Club of Canada, was pitched 2,000 feet to his death when he attempted to glissade down the Lefroy glacier, near Lake Louise. This is a deceptive glacier and once Mr. Geddes started he found it was impossible to check his flight. First he was thrown, then his ice pick was torn from his hands and with terrific speed he was carried over the ice ledge and hurled to the rocks and ice far below.

Mr. Geddes was conducting a private party and a guide had not been taken along. He led his friends to Mount Lefroy peak, a feat that was not difficult for him in the light of his experience in climbing this particular mountain, and it was on the downward journey that the tragedy occurred. The expedition had no connection with the Alpine Club of Canada.

Mr. Geddes was one of Calgary's best known business men. He was editor and vice-president of the Farm and Ranch Review, and was president of United Oils, Limited.

## Non-Stop Flight Fails

### British Aviator On Secret Trip To India Crashes

London.—The British air ministry announced that an attempt of a Royal Air Force machine to make a non-stop flight to India ended when the plane fell into the Danube River, in Austria.

Despatches from Vienna reported that the plane fell at Somerberg near Linz, the crash being believed to be caused by the over heating of the motors.

Flight Lieutenant C. R. Carr and Flying Officer E. G. Dearth, neither of whom, it was stated, was badly hurt, were taken to Ashach, near Linz.

### A Distinguished Visitor

London.—Canada is to have yet another distinguished English visitor in a short time. Lord Hewart of Bury, lord chief justice of England. He will attend the annual meeting of the Canadian Bar Association in Toronto, which will open on August 24. Lord Hewart has held his present high office since 1922, when he stepped up from the attorney-generalship after having been attorney-general from 1919.

### Promotions Approved

Regina.—Among the promotions and transfers approved by the Civil Service Commission are the following: Arthur Paterson, Prince Albert, from grade 3 clerk to grade 4; George Garrett, forest assistant, grade 2, Grand Coulee; Walter Pottie, to be radio inspector or radio electrician, Regina.

## University Students Turn Harvesters

These alert and husky lads are British University students here for the harvest. They came to Canada aboard the Canadian Pacific steamer *Montrose*, arriving in Quebec and Montreal recently. While awaiting their jobs in the harvest fields of Saskatchewan, they are being placed on Ontario farms during the harvest season, by Ontario Government agents. They will return to their respective colleges in England and Wales towards the end of October. The universities represented in this first "Universities' Harvesters' Tour" of the present season — for others are following — are: Cambridge University, King's College, London, the London School of Economics, University College, London, Manchester School of Technology, Oxford, Reading, Southampton, and Swansea. Half of the students are from Agricultural Colleges or Faculties, most of them are from the classical side.

## Scandinavian States Have Outlawed War

### Series Of Treaties Ensure Peace For All Time

Stockholm.—By a series of unrestricted treaties of conciliation and arbitration, war has already been "outlawed" between Sweden and her Scandinavian neighbors, as well as with a number of other European countries, Prime Minister Carl G. Ekman declared in an interview.

"Of course," said the Premier, "if one of the parties breaks the contract, war may break out just the same, but it will not be legal."

"We have agreed with these countries that all disputes, no matter how serious, are to be arranged peacefully. The methods of procedure differ slightly in each case, but the effect is the same. What we can not settle by direct negotiations or by arbitration will be decided by the International Court of Justice at The Hague."

The states with which Sweden has solemnly pledged itself to rule out war as a means of settling disputes are Denmark, Finland, Norway, Belgium, Poland, Austria and Czechoslovakia. The other Scandinavian states have also made similar terms with each other.

At present, negotiations are pending between Sweden and France for a similar agreement. The actual conference was to have started in June, but, owing to the parliamentary situation in France, it was postponed till next January.

## Rockefeller Asked To Cancel Soviet Deals

### British Group Want Oil Investment Withdrawn Is Report

New York.—The New York Herald Tribune says that an appeal to John D. Rockefeller, Jr., active head of the far flung Standard Oil empire, to withdraw from any financial deals with the Soviet Government has been made by Sir Henri Deterding, managing director of the Royal Dutch Shell Oil group, of Great Britain. The appeal was made after the Royal Dutch group had been unable to block two large United States oil companies, members of the Standard Oil group, from entering into oil contracts with the Soviet.

In his letter Sir Henri is understood to have appealed to Mr. Rockefeller's interest in churches and philanthropic work, pointing out that the Soviet had destroyed churches and similar institutions as well as having confiscated property and nationalized all industry.

### Held Night Session

Dublin.—The Dail Eireann decided by a vote of 54 to 24 to sit all night for the purpose of passing the government's drastic public safety bill. The bill was introduced by President William Cosgrave, after the recent assassination of Vice-President Kevin O'Higgins. Under it the death penalty may be imposed for the possession of arms.

## DEDICATE ALTAR WHERE LIES BOOK OF REMEMBRANCE

Ottawa.—Within the sanctuary of the Peace Tower the Prince of Wales dedicated the altar where will lie the Book of Remembrance to the 60,000 Canadians who died in the war. There in the memorial chamber, standing on stone from the battlefields of France and Flanders, the Prince had gathered about him men whose names are known in Canada through and through. The Governor-General and Lady Willingdon stood side by side with Prince George, with the Prime Minister of Great Britain and Mrs. Baldwin. The apostolic delegate stood close by the moderator of the Presbyterian Church and the President of the Baptist convention.

Premier King in a few words invited His Royal Highness to dedicate the altar. He spoke of what it meant, how the altar was a gift from the mother country of Great Britain, of how, when the book of remembrance was finally deposited, it would contain the names of sixty thousand Canadian dead.

The Prince advanced.

"In the name of the people of Canada," he said, "I set apart the altar of this chamber to receive and hold forever the Book of Remembrance to the glory of those whose names are written therein that they may live for all generations."

He raised the Union Jack and turned it back. And, as he turned it, revealing a book on cloth of red and white and gold, a shaft of sunlight streamed through the windows and words inscribed on the altar were clear and distinct:

"My marks and scars I carry with me to witness for me that I have fought His Battles who will now be my Rewarder. So he passed over and all the trumpets sounded for him on the other side."

As the last words fell from the lips of the Prince, the Last Post echoed through the silence of the tower. Above the flag dipped in tribute faintly from the great square outside could be heard the guard of honour called to the present arms.

## War Veterans Secure Land

### Returned Men File On Homesteads In Saskatchewan

Moose Jaw.—All that remains of the once famous W-Bar Ranch, southwest of Coderre, consists of an eighty-acre park, the property of the Shamrock Rural Municipality. The remainder of the ranch pasture was filed on by homesteaders, and only one quarter section of very poor land was scorned by the homesteaders, who filed on some 80 quarters. About one-half of the acreage was obtained by war veterans, and every parcel was secured by men of British birth who are actively engaged in farming operations within nine miles of the land they desired.

### Held Justified In Killing

Beeton, Ont.—Alex. Hodge was justified in killing Dan Forsythe when the latter invaded his home near here July 22, the coroner's jury inquiring into the case decided. The verdict read: "The jury sworn in to inquire into the death of an unknown man have arrived at the conclusion that the said man was none other than Dan Forsythe and that he came to his death at the hands of Alex Hodge, who acted in defence of his own life, and we deem him justified."

### Report Is Denied

Ottawa.—A report which has appeared in a portion of the press to the effect that Right Hon. Stanley Baldwin has accepted a gift of a motor car made especially for his use during his Canadian visit was emphatically denied by members of the British Premier's staff. There was said to be absolutely no foundation for the report.

### Water Was Electrified

Bangor.—Ernest Norwood, fireman and janitor of a factory here, started to wash his hands in a basin of water he saw on the floor. He woke up in a hospital. The basin was highly charged with an electricity, being connected with an electric refrigeration plant.

Thursday, August 1927.

### Church Announcements

#### KNOX and WESTCOTT

This is the age of discovery. The world is bristling with new findings, but there are two discoveries concerning personality which every successful human being must find or be mentally and spiritually impoverished. The minister is taking for his theme Sunday, August 14th, "The man who found himself." It is based upon perhaps the most familiar Bible story. You cannot spend a better hour than at Divine service.

Lone Pine Hall —Sunday, August 14th. Church service three p.m. Sunday school two p.m.

#### S.T. CYPRIAN'S

(Church of England) Priest-in-charge, Rev. H. Clay, Box 157, Olds. First Sunday in the month —Afternoon at 3.00 p.m. Third Sunday in month — Morning at 11.00 a.m. School is held every Sunday.

#### LUTHERAN CHURCH

Westcott, 10.30 a.m. English Didsbury, 2.30 p.m. German. Though the attendance did not measure up to that of former years due to the rain, the Mission festival held on Sunday was a decided success. Two inspiring addresses on missions were delivered by Rev. A. Appelt of Wetaskiwin, while Missionary Ziegler of Chinook gave an informal talk on Chinese life and habits. Appropriate musical selections were rendered both by a ladies' trio and the choir. The Mission offering of the day amounted to \$52.86.

Preparations are underway for a Walther League rally to be held in Didsbury on Sunday, August 21st. Young people from the neighboring congregations to the north and south are expected to attend. Dir. A. H. Schwermer of Edmonton will be the principal speaker.

### Burnside.

Mr. and Mrs. Alex. Leiper and family, accompanied by Mrs. Woods, spent the week-end with Mrs. Leiper's parents, Mr. and Mrs. Alex. Blair at Okotoks.

The Lone Pine W.I. met at the home of Mrs. E. R. Dawson on Saturday afternoon last. A very satisfactory report was given by the secretary, showing a good balance in hand towards the finishing of the Lone Pine hall interior. Our constituency convenor, Mrs. Lessson, was with us and gave a short address. The next meeting will be held at the home of Mrs. John Topley on the second Thursday in September.

There is a dance in our Lone Pine hall this Friday evening. Clemens-Bellamy orchestra.

Mr. and Mrs. Eckel and son Robert spent Sunday at Sylvan Lake.

Mrs. Fred Thompson of the Elliott ranch has as his guest, Mrs. Jackson and small daughter of Calgary.

The W.C.T.U. are holding their annual meeting at the home of Mrs. Peter Liesemer on Tuesday of this week.

The Burnside U.F.A. met on Monday night and after the regular business the following four delegates were appointed to the Didsbury U.F.A. constituency convention—G. A. Burns, Joe Rist and Mr. and Mrs. N. Eckel.

The hall board are putting on a

**Then**

In 1920  
this Chevrolet 2-door  
Sedan Cost  
**\$1795.00**

In 1927  
this Chevrolet 2-door  
Sedan (Coach) Cost  
**\$750.00**

COMPARE the  
Chevrolet of  
seven years ago  
with the Chevrolet of today and realize  
how radically Chevrolet has revised all  
conceptions of motor car value.

In 1920, the Chevrolet illustrated here  
represented the highest standards of  
quality and value . . . at a price of \$1795  
(f.o.b. Oshawa) . . . over a thousand dollars  
more than you pay today for a Chevrolet  
that possesses style, luxury and refinement  
unthought-of in any car a few years ago.

In following its fundamental policy of constant  
improvement, Chevrolet has built up a production  
volume which places it first among all cars  
in the world. And Chevrolet has shared the savings  
of volume purchasing and production, with  
the public by reducing the prices of Chevrolet  
cars.

So, today, you get a Chevrolet with amazing  
QUALITY in its every detail at a fraction of  
the cost of a similar model Chevrolet of seven  
years ago.
